- Moisture Resistant
- Lasts the Life of the Fabric
- Easy to Clean

Benefits

- Easy to Clean
- Beautiful yet Durable
- Extends the life of your furniture
- Environmentally preferable- GREENGUARD Gold Certified for healthier indoor air quality

What is Crypton Home Fabric?

Crypton Home is an engineered high-performance upholstery fabric. Transformed on a molecular level, it offers lifelong stain, moisture and odor protection.

So what does that mean exactly?

- Crypton® Home fabric is not a topical solution (think ScotchGuard, etc.)
- The Crypton patented process includes an immersion bath followed by a heat process that seals the technology onto each fiber
- Crypton stain and moisture protection lasts for the life of the fabric

What makes us special?

- A huge selection of patterns, colors, textures with a very soft hand designed to be durable
- Warranty
- 30 years in the performance category
- Built our business in the extremely demanding contract fabric arena (which means you can trust that our residential fabric specs are ahead of the curve and can adapt easily to the needs of a busy modern home)

Who needs it?

Everyone! It's great for families, pet owners, those who simply love life. Entertaining, dinner parties, game days and sleepovers are now events that happen without worry of stains, spills and odors.
